OUR FACTORY

HILLSDALE

ANNOUNCEMENT

We are describing and illustrating herewith the screen doors and window screens that the Hillsdale Screen Co. will manufacture and sell for the coming season.

Hillsdale Screens have all the refinements necessary to make them attractive in appearance and yet they are built strong enough to stand hard service which makes SATISFIED CUSTOMERS of all who buy them.

We wish to call your attention to the OAK door which we are Manufacturing. We feel sure that a stock of these will enable you to get some business which otherwise would go to carpenters and shops making made-to-order screens.

You will also find HILLSDALE COMBINATION STORM and SCREEN DOORS a profitable line to carry as more of these are being sold each year by our dealers. They sell all the year round—to keep out the flies in summer and the cold in winter.

Our large warehouses give us ample storage space to carry a sufficient stock so we can make prompt shipment of orders for standard sizes either in car lots or L. C. L.

Our factory is located at a large junction point of the New York Central Railroad, and we also have through truck service to the large shipping centers in MICHIGAN, OHIO and INDIANA, which enables us to give our customers very quick deliveries on their L. C. L. orders.

We have enjoyed a large increase in the number of our customers the past year which we feel is the strongest endorsement our merchandise can have and we assure you our line the coming season will satisfy you and your trade.

Yours very truly,
HILLSDALE SCREEN CO.
HILLSDALE, MICH.

HILLSDALE

Sizes and Detail

Standard Sizes

2 feet	6 inches x 6 feet	6 inches
2 feet	6 inches x 6 feet	8 inches
2 feet	8 inches x 6 feet	8 inches
2 feet	8 inches x 6 feet	10 inches
2 feet	8 inches x 7 feet	
2 feet	10 inches x 6 feet	10 inches
2 feet	10 inches x 7 feet	
3 feet x 6 feet	8 inches	
3 feet x 6 feet	10 inches	
3 feet x 7 feet		

Doors are made $\frac{3}{4}$ of an inch longer and slightly wider than the sizes given above to allow for trimming.

Finish

Hillsdale doors are all finished with a durable grade gloss varnish that has been subjected to the most severe weather tests, and have either two or three coats, as specified.

Window Ventilators	20-30 lb

HILLSDALE

Shipment and Terms

All Screen Doors packed in one-half doz. packages, extra charges for smaller packages.

When goods are sold "delivered" freight expense bill must be sent for credit.

We do not allow cartage charges.

When accounts are due, we draw with exchange.

Remittances must be made without expense to us.

All prices subject to change without notice.

Distribution Cars

We make up distribution cars for our customers, where our screen doors will be delivered in carload lots and distributed free of cost, F. O. B. cars at these distribution points.

Specifications for shipment in these cars must be entered with us on or before Feb. 1.

All claims for shortage or damaged goods must be reported promptly upon arrival of same, and satisfactory adjustment will be made for any shortage or imperfections for which we are responsible. Our responsibility for goods in transit ceases when delivered by us into the hands of the carriers. *All bills of lading should be preserved, as it is necessary to have them in case goods are damaged in transit.*

Quantities for Car Load Shipment

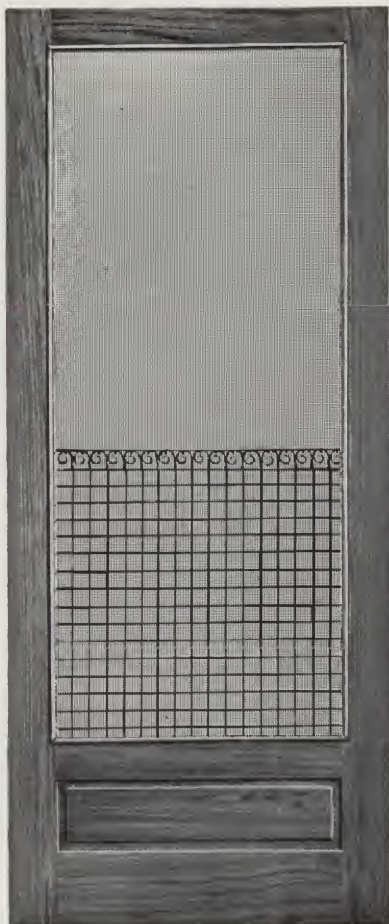

Doz. to Car

Screen doors ----- 100 to 135
Extension Window Screens 500 to 900

The weight required for a minimum car load: 24,000 lbs.

HILLSDALE

Twelve-Light Combination Screen and Storm Door

Glass panel in
Winter keeps out
the cold.

Screen Panel in
Summer keeps
out flies.

No. 60.

Our No. 60 is made with 5-inch stiles, $1\frac{1}{8}$ inch thick, of selected white pine lumber, sanded and smoothed after assembling. Furnished "in the White" shipped complete with twelve-light glass section with glass, and screen panel wired with 16-mesh galvanoid wire cloth.

Can also be furnished with 16-mesh bronze wire cloth at regular advance.

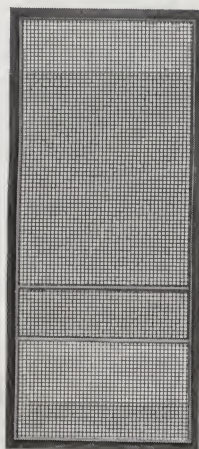

The Hillsdale panel lock is a neat appearing positive metal lock, that eliminates the rattling of the removable panels. This lock fastens on inside of door, so there is no chance of removing panel from outside of door.

Changing the screen panel for the storm panel is very simple, a screw driver is the only tool necessary, and a quarter turn releases the tension so the panel can be removed.

HILLSDALE

Combination Screen and Storm Door

12 Equal Size Lights

Screen Panel in
Summer keeps
out flies

No. 65

Our No. 65 has 5 inch stiles. 1½ inch thick, made of white pine lumber, sanded and smoothed after assembling.

Furnished in the White, complete with 12-light storm panel with glass of equal size, and screen panel wired with 16-mesh galvanoid wire cloth.

Screen and storm panels are interchangeable and are fitted so all that is needed to make the change is a screwdriver.

Stock Sizes of Doors

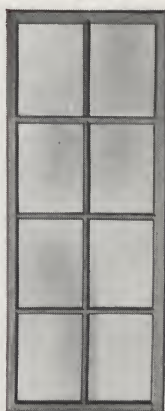

2-6 x 6-6; 2-6 x 6-8; 2-8 x 6-8
2-8 x 6-10; 2-8 x 7; 2-10 x 6-10; 2-10 x 7
3 x 6-8; 3 x 6-10; 3 x 7

All of the above sizes furnished with 16-mesh Bronze wire cloth at regular advance.

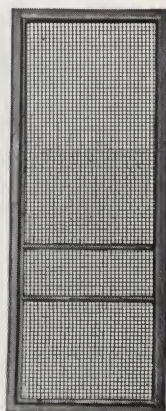

Hillsdale Combination Doors once hung are permanent and sell all the year, as a screen door in summer and a storm door in winter.

HILLSDALE

Eight-Light Combination Screen and Storm Door

Glass panel in
Winter keeps out
the cold.

Screen Panel in
Summer keeps
out flies.

No. 85.

Our No. 85 is made with 5-inch stiles, $1\frac{1}{8}$ inch thick, of selected white pine lumber, sanded and smoothed after assembling. Furnished "in the White" shipped complete with twelve-light glass section with glass, and screen panel wired with 16-mesh galvanoid wire cloth.

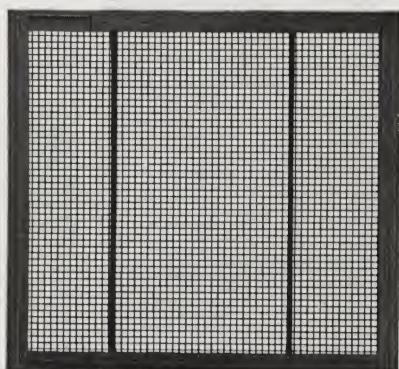

Can also be furnished with 16-mesh bronze wire cloth at regular advance.

The Hillsdale panel lock is a neat appearing positive metal lock, that eliminates the rattling of the removable panels. This lock fastens on inside of door, so there is no chance of removing panel from outside of door.

Changing the screen panel for the storm panel is very simple, a screw driver is the only tool necessary, and a quarter turn releases the tension so the panel can be removed.

HILLSDALE

**THE HILLSDALE
LOUVER WINDOW VENTILATOR**

**The Hillsdale Louver Ventilator is
Used the Year Around**

More especially in the Fall and Winter. It permits circulation of fresh air without drafts, rain or snow. It is essential for the proper ventilation in the Home, Office, Schools, Hospitals, etc.

It is made with a strong wood frame, the ventilator part being constructed of strong, sturdy metal, enameled gray.

Packed 1 Doz. in Pasteboard Carton.

Made in the following sizes:

No. 637-L—6" high, adjustable, from 22 to 37" in width.

No. 833-L—8" high, adjustable from 20 to 33" in width.

No. 837-L—8" high, adjustable from 22 to 37" in width.

No. 1033-L—10" high, adjustable from 20 to 33" in width.

No. 1137-L—11" high, adjustable from 22 to 37" in width.

The Hillsdale Ventilator Cloth Screen

Ventilation is an absolute necessity.

The proper ventilating of rooms, offices and schools is very essential to the health of everyone.

By using a *Cloth Ventilator* in all windows sickness is prevented and Fresh Air can enter without Drafts or Dirt, Rain or Snow. Curtains and furnishings are protected.

The Hillsdale Ventilator has a strong wooden frame constructed the same as Hillsdale window screens, and special quality fine mesh, tan colored cloth is used.

Can be washed with hot water, soap suds and brush, then left in window to dry. Will look like new again.
